TECHNICAL SKILLS

Languages: HTML, CSS, MySQL, MongoDB, JavaScript, Java

Frameworks: ExpressJs, Bootstrap, Material UI

Developer Tools: Git, VS Code, Firebase, Gitbash

Libraries: ReactJs, Node.js, tailwind CSS

Concepts: MVC, OOPS, JDBC

EDUCATION

SSBT College of Engineering and Technology

Bachelor of Engineering in Electrical
Engineering

Maharashtra, India

2019 – 2022

Maharashtra, India

2016-2019

Shree Gulabrao Devkar College Of Polytechnic

Diploma In Electrical Engineering

Maharashtra, India

2016

Y.D. Patil school

10th

PROFESSIONAL EXPERIENCE

Associate Software Engineer

TestYantra Software Solutions • Bangalore, Karnataka
06/2023 - Present

Web Developer Intern

Working as an Associate Software Engineer from July 2023, developing and implementing web Applications.

Key responsibilities and achievements include:

- Developed web applications using React, MongoDB, Express.js, Node.js, Material UI, Tailwind and Bootstrap.
- Designed and implemented software solutions in accordance with client requirements.
- Participated in the debugging process of software solutions.
- Assisted in the analysis of user requirements and software design processes
- Resolved application related issues within specified time frames.

PROJECTS

• Attendance Management System (Mern Project)

[LINK](#)

- Utilized the **MERN stack** (MongoDB, Express.js, React, Node.js) to create a robust and scalable application.
- Designed and implemented a responsive and intuitive user interface using **React** and **Tailwind CSS** for enhanced user experience
- Integrated technologies such as QR code for automated attendance logging.

Code Editor for HTML, CSS, and JavaScript Using React

[LINK](#)

- Utilized **React** to build a dynamic and responsive user interface, providing an optimal user experience across devices.
- Designed the editor layout with **Tailwind CSS** for clean and aesthetic styling, ensuring usability and accessibility.
- Implemented live preview functionality that reflects changes in HTML, CSS, and JavaScript in real-time, allowing instant feedback on code changes

Sticky-Notes-Application | React, Async API, React Hooks,

[LINK](#)

- Developed features for creating, editing, and deleting notes with real-time updates, enhancing user productivity and interaction.
- Added a robust search functionality to quickly find notes based on content, tags, or color.
- Built filtering options to allow users to view notes by category, date created, or tags, simplifying note management.

HOBBIES

- Coding
- Reading.
- Following Tech News
- Learning New Technologies.
